

## Introducing Our Advocacy Program

People with disabilities and their families often want to speak with an attorney on minor matters. It brings many of our clients comfort to have an attorney "on call" to answer their questions.

As a response we have developed our "Advocacy Program" where, for a minimal cost, you have an attorney available to you at any time. Of course, should you need more in-depth legal work a legal fee will be charged for the specific matter. The annual retainer includes unlimited phone calls, e-mail exchanges, etc.

No matter is too small! We can assist you on the following matters, among others:

- Special Education
- Estate Plans and Trusts
- Special Needs Trusts
- Social Security/Medicaid
- Residential Options
- Guardianship Matters
- Future Planning
- Major Life Changes
- Any other matter involving your special needs family member

We understand the difficult times we are facing and know many of our clients are worried and uncertain about the future. Our office is ready to assist you on any matter, big or small. Call our office at 516-822-3397, or send us an e-mail at [smg@smgesq.com](mailto:smg@smgesq.com) to find out more.

Be well,

Sandra Gumerove & Associates
